

LECTURE 2 — JAN. 28

Homework 1 description:

Cite things if you find something on Stack Overflow.

Part A asks for a few different functions for each problem, to do a basic data science task and there are some examples to test code.

Part B is data visualization from the [gapminder](#) package.

DATA VISUALIZATION AND GRAMMAR OF GRAPHICS

Learning goals

- What are common statistical graphics
- How to look at data
- Key ingredients of useful plots
- A grammar of graphics
